

Math U See Schedule Set Ups

The following pages contain schedules for certain Math-U-See Curriculums.

- Lower Levels: Alpha* - Pre-Algebrapgs. 2 - 4 (30 chapters with worksheets A-G)
- Algebrapgs. 5 - 7 (35 chapters with worksheets A-E, H)
- Geometrypgs. 8 - 10 (30 chapters with worksheets A-E, H)

*We started on Beta level so the schedule provided is assuming that Alpha follows the same set up

**Please note that the unit tests indicated may fall between the chapters given. Each level's unit test placement may vary.

These schedules do not take holidays and other breaks into account. Every homeschool is different. As a teacher, I do not recommend giving students exams on Mondays. So if your schedule becomes a little off because of a missed day, continue as normal and adjust when you believe an exam will fall on a Monday.

Remember, if you feel your child has absolutely mastered a concept than by all means, skip a sheet or two. This will help speed the year along. Also, you may find some chapters are really easy. Go ahead and skip a couple of pages here as well.

Geometry: chapter 1 is the only one that has five sheets A-D, H; the rest have 6. So the first week is set up differently. And with less worksheets and chapters this time, we are able to cut down to one worksheet per day.

I will update these sheets every year with the latest curriculum we are using.
